

DIAMOND CORE DRILL DDR-V 2" (50mm) KERAMIK PRO

Brand: Baumesser

Product Code: DCD50AG0002

Availability: In Stock

Dimensions: 0.00in x 0.00in x 0.00in

Price: CA\$49.00

Short Description

The **DIAMOND CORE DRILL DDR-V 2" KERAMIK PRO** delivers high-speed, chip-free drilling for ceramic tiles and porcelain stoneware. Engineered for precision and durability, it's ideal for professional and DIY applications.

Description

The **DIAMOND CORE DRILL DDR-V 2" KERAMIK PRO** is specifically crafted for efficient drilling in ceramic and frost-resistant porcelain stoneware. Featuring durable diamonds set in a robust bond, this tool guarantees clean, accurate holes without chipping or cracking.

With a fast drilling speed of just 7 seconds for 10 mm thick porcelain tiles, the **DDR-V 2" KERAMIK PRO** is a must-have for professionals and enthusiasts. Its compatibility with angle grinders (115 mm and 125 mm) operating at optimal speeds of 8,000–11,000 RPM ensures smooth, efficient performance for any task.

Key benefits include:

- **High-Speed Precision:** Quickly drills clean and chip-free holes in tough ceramic and porcelain materials.
- **Exceptional Durability:** Built with high-strength diamond edges for long-lasting use.
- **Versatile Applications:** Perfect for dry drilling with swaying motions, suitable for a wide range of construction and finishing tasks.

Ideal for construction professionals, tile installers, and home renovation enthusiasts, the **DIAMOND CORE DRILL DDR-V 2" KERAMIK PRO** is a reliable tool that combines speed, accuracy, and durability. With diameters ranging from 6 mm to 120 mm, it's designed to meet the demands of projects big and small.

Experience the next level of drilling with the **DIAMOND CORE DRILL DDR-V 2" KERAMIK PRO** – your ultimate solution for ceramic and porcelain work.
