DIAMOND CORE DRILL DDR-V 1 3/16" (30mm) KERAMIK PRO

Brand: Distar
Product Code: DCD30AG0005
Availability: In Stock
Dimensions: 0.00in x 0.00in x 0.00in

Price: CA$30.00

Short Description

Experience precision and durability with the DIAMOND CORE DRILL DDR-V 1 3/16" KERAMIK PRO, engineered for efficient drilling in ceramic, porcelain, and frost-resistant ceramic granite materials.

Description

The DIAMOND CORE DRILL DDR-V 1 3/16" KERAMIK PRO is the ultimate tool for professionals and DIY enthusiasts seeking unparalleled precision and performance. Designed for high-speed, clean, and chip-free drilling, it handles a wide range of hard materials, including ceramic tiles, porcelain, and frost-resistant ceramic granite.

Key Features:

- **Durable Diamond Composition**: Embedded with high-strength diamonds for exceptional longevity and cutting efficiency.

- **High-Precision Drilling**: Delivers clean, chip-free holes even in the hardest

materials, maintaining the integrity of surfaces.

- **Dual Functionality**: Supports both dry and wet drilling, enhancing versatility for various project needs.

- **Fast and Efficient Performance**: High drilling speeds ensure productivity without compromising accuracy.

Applications:

- **Professional Use**: Perfect for construction and finishing tasks that require precise drilling in ceramic and porcelain surfaces.

- **DIY Projects**: A reliable choice for home improvement tasks involving premium ceramic materials.

- **Commercial Projects**: Meets the demands of large-scale installations with superior performance and dependability.

Technical Specifications:

- **Diameter**: 1 3/16" (30mm)

- **Material Compatibility**: Ceramic, porcelain, frost-resistant ceramic granite, marble, and granite

- **Drilling Type**: Wet and dry

- **Optimal Use**: Ideal for use with standard and professional drilling equipment

Choose the DIAMOND CORE DRILL DDR-V 1 3/16" KERAMIK PRO for efficient, precise, and durable performance. It's the professional's choice for tackling demanding ceramic drilling projects.
