

DIAMOND CORE DRILL DDR-V 2 "

KERAMIK PRO

Product Code: DCD50AG0002

Availability: 100

Weight: 0.00kg

Dimensions: 0.00cm x 0.00cm x 0.00cm

Price: CA\$49.00

Description

DIAMOND CORE DRILL KERAMIK PRO

from the brand [Distar](#) are high-speed vacuum drills specially designed for drilling ceramic materials, including hard and frost-resistant ceramic granite. Their use becomes necessary due to the constant expansion of the range of such materials and the increasing complexity of their processing.

Key Features:

1. **Highly Durable Diamonds:** Each drill is equipped with high-durability diamonds, secured in a hard bond, ensuring longevity and effective drilling even of the hardest ceramic materials.
2. **Superior Drilling Accuracy:** The unique drill design provides clean and precise drilling of ceramic material without chipping or cracking.
3. **Universal Application:** DIAMOND CORE DRILL KERAMIK PRO are suitable for both dry and wet drilling, providing flexibility for use in various conditions and projects.

Advantages:

1. **High Efficiency:** Thanks to high drilling speed and a sturdy construction,

DIAMOND CORE DRILL KERAMIK PRO drills ensure fast and effective task completion.

2. Superior Drilling Quality: Achieve clean and neat holes without chipping or cracking, which is especially important when working with expensive ceramic coatings.
3. Durability and Reliability: DIAMOND CORE DRILL KERAMIK PRO are designed for long-term use, making them an indispensable tool for professionals and hobbyists.

Ideal For:

1. Professionals: An ideal choice for construction and finishing works requiring high drilling precision and quality.
2. Amateurs: Allows easy and safe drilling of ceramic tiles and other materials in home conditions.
3. Construction Companies: Provides high productivity and reliability in executing construction projects of any scale.

Entrust your tasks of drilling ceramic materials to DIAMOND CORE DRILL KERAMIK PRO and enjoy high quality and professional results! The ability to drill ceramic granite, marble, and granite makes these drills an ideal choice for a wide range of projects.
