Short Description

A high-precision 4-1/2" Esthete 1A1R diamond blade designed for clean, chip-free cutting of porcelain, ceramic tiles, and gres. Perfect for professionals requiring accuracy and smooth finishing.

Description

4 1/2" Esthete 1A1R Diamond Blade – Precision Cutting for Porcelain & Ceramic

The **Esthete 1A1R 4 1/2" Diamond Blade** by Distar is engineered for craftsmen who demand flawless accuracy and a smooth, chip-free finish. Designed for porcelain gres, ceramic tiles, and fine materials, this blade delivers superior performance on every cut.

Unmatched Features for Exceptional Results

- **Precision Cutting:** Ultra-clean edges with minimal chipping even on delicate materials.
- **Durable Diamond Layer:** Optimized matrix provides long life and stable

performance.

- **Thin-Cut Design (1.1 mm):** Ensures smooth, accurate cutting with reduced vibration.
- **Universal Fit:** Compatible with both 4 1/2" and 5" angle grinders.

Engineered for Versatile Applications

- Porcelain gres tiles
- Ceramic wall and floor tiles
- Finishing cuts and detailed shaping

Why Choose the Esthete 1A1R?

This blade combines precision engineering with reliable performance, making it ideal for tile setters, contractors, and advanced DIY users. Its refined diamond composition ensures consistent cutting quality and dependable results.

Achieve Professional-Grade Craftsmanship

Whether you're completing intricate tile layouts or smooth finishing cuts, the **4 1/2" Esthete 1A1R Diamond Blade** elevates your work to a professional standard. Experience the accuracy, speed, and durability that Distar blades are known for.
