

DIAMOND CORE DRILL DDR-V 1 9/16" (40mm) KERAMIK PRO

Brand: Baumesser

Product Code: DCD40AG0003

Availability: In Stock

Dimensions: 0.00in x 0.00in x 0.00in

Price: CA\$40.00

Short Description

The **Diamond Core Drill DDR-V 1 9/16" KERAMIK PRO** is a high-performance tool designed for precise drilling in ceramic and porcelain tiles. Engineered for durability and speed, it delivers clean, chip-free results in both wet and dry conditions, making it ideal for professionals and DIY enthusiasts alike.

Description

The **Diamond Core Drill DDR-V 1 9/16" KERAMIK PRO** by Distar is the ultimate solution for drilling ceramic and porcelain tiles, including hard and frost-resistant materials. Featuring advanced diamond technology, it ensures superior precision and durability, delivering clean, chip-free holes with ease.

Key Features:

- **High-Speed Performance:** Engineered for efficient drilling, even in the hardest ceramic and porcelain tiles.

- **Durable Diamond Bond:** Equipped with premium diamonds in a robust bond for extended tool life and reliable performance.
- **Versatile Application:** Suitable for both wet and dry drilling, providing flexibility for diverse projects and environments.
- **Clean Drilling Results:** Achieve neat, chip-free holes without cracks or damage to delicate materials.

Ideal For:

- **Professionals:** A trusted tool for construction and finishing projects demanding high precision.
- **DIY Enthusiasts:** Perfect for at-home tile installation and maintenance with professional-quality results.
- **Construction Companies:** Ensures productivity and reliable performance for large-scale projects.

Recommended for use with angle grinders operating at 8,000-11,000 RPM for optimal performance. Whether you're tackling a professional project or a home improvement task, the DDR-V 1 9/16" KERAMIK PRO guarantees outstanding results every time.
