

Diamond Core Drill DDR-V 5/8" (16mm) KERAMIK PRO

Brand: Distar

Product Code: DCD16AG0001

Availability: In Stock

Dimensions: 0.00in x 0.00in x 0.00in

Price: CA\$25.00

Short Description

The DIAMOND CORE DRILL DDR-V 5/8" KERAMIK PRO offers unmatched precision and durability, ideal for drilling ceramic, porcelain, and frost-resistant granite with clean, chip-free results.

Description

The DIAMOND CORE DRILL DDR-V 5/8" KERAMIK PRO is a high-performance tool designed for accurate and efficient drilling in premium ceramic materials. Its robust diamond composition ensures exceptional durability and precision, making it a trusted choice for professionals and DIY enthusiasts alike.

Key Features:

- **Durable Diamond Composition:** High-strength diamonds embedded in a reliable binder for consistent cutting performance.
- **Chip-Free Precision:** Engineered for smooth, clean drilling, preserving the

integrity of ceramic and porcelain surfaces.

- **Versatile Operation:** Supports both wet and dry drilling, accommodating a variety of project requirements.
- **High-Speed Drilling:** Designed for rapid operation, maximizing productivity without sacrificing quality.

Applications:

- **Construction Professionals:** Ideal for precision drilling in ceramic tiles, porcelain, and granite.
- **Home Projects:** Simplifies DIY installations involving ceramic and frost-resistant materials.
- **Large-Scale Installations:** Ensures reliability and efficiency in demanding commercial projects.

Technical Specifications:

- **Diameter:** 5/8" (16mm)
- **Material Compatibility:** Ceramic, porcelain, frost-resistant ceramic granite, marble, and granite
- **Drilling Type:** Wet and dry
- **Optimal Use:** Suitable for standard and professional drilling tools

With the DIAMOND CORE DRILL DDR-V 5/8" KERAMIK PRO, you'll achieve perfect results every time, whether working on intricate designs or heavy-duty tasks. Trust in its reliability for all your ceramic drilling needs.
